## Upcoming Classes

Appleton, WI

### Gen 2 & 3 Striker ARFF 5-day Chassis Maintenance & Troubleshooting

This course familiarizes service personnel with the vehicle chassis and power-divider components. The students will learn proper operation, lubrication, adjustments, preventative maintenance, and trouble-shooting procedures for the following systems: power distribution, engine, transmission, ABS and suspension.

- February 24 - 28, 2025
- June 09 - 13, 2025
- August 18 - 22, 2025
- November 03 - 07, 2025

### Gen 2 & 3 Striker ARFF 5-day Firefighting Maintenance & Troubleshooting

This course familiarizes service personnel with the vehicle firefighting systems and components. The students will learn proper operation, lubrication, adjustments, preventative maintenance, and troubleshooting procedures for the following systems: water pump, turret, hand lines, dry-chemical, and clean agent systems

- March 03- 07, 2025
- June 16 - 20, 2025
- August 25 - 29, 2025
- November 10 - 14, 2025

## Learn from our Experts

When it comes to expert instruction in repairs, maintenance, and trouble-shooting Striker ARFF vehicles, our training is in a class by itself.

Our training specialists are vehicle experts and understand the needs of the students. Your mechanics will get in-depth, hands-on training they need to increase readiness, performance, and productivity.

### Ahead of the Learning Curve

We have developed a blended approach to training which leverages the advantages of both classroom and shop experiences, combining them with advance 3D modeling, virtual task trainers, online learning, and hands-on experience. Our training methodology prepares you with advanced, realistic troubleshooting experiences.

Class sizes are designed to offer students greater hands-on experience and instructor interaction.
